EXPERIENCE

Hai Toyota

Trainee

Florianópolis, SC (2016/2017)

- Organized, received and stored car parts
- Issued invoices, processed payments and returns
- Generated reports on daily and monthly sales, test drive forms, and provided customer service.

Hospitália Cirúrgica Catarinense

Trainee

Capoeiras, SC (2017/2018)

- Monitored the validity of implants and instruments, managed lot control, received, verified and dispatched materials
- Processed invoices and managed the disposal and repair of cirurgical instruments

Neorede Telecom

L2, L3 Analyst

Biguaçu, SC (2019/2021)

- Provided advanced technical support to businesses and the city hall; configured VoIPs using PabX and Asterisk systems, managed phone number portability, configured mikrotik equipments, p2p, and wireless communication, provisioning of ONUs and ONTS.
- Monitored VLANs and data using primarily ZABBIX, GRAFANA, and The Dude software.

PERSONAL ACHIEVEMENTS AND WEB3 EXPERIENCE

NFTs, Trading, and Programming

(2021/now)

- Continuously learning JavaScript language and exploring frameworks like ReactJS, VueJS and TypeScript.
- Created this professional resume using LaTeX, which is available on my GitHub profile.
- Studying and analyzing NFTs and blockchains for more than 12 hours every day since September 2021. Gained basic knowledge of Solidity language and developed smart contracts. Successfully grew an NFT project from scratch during a bear market, which now has over 2,000 Twitter followers and has traded over 14 ETH in volume. As the smart contract coder, advisor, and community manager for this project, gained vast experience working with the Ethereum blockchain and the etherscan explorer. Also gained extensive knowledge of NFTs and NFT marketplaces and can advise on art, project description, mint price, tokenomics, and any other relevant factors. High trading volume on Opensea and received significant compensation through Airdrops based on on-chain activity.
